Most of the time people see me as a normal regular person and they never realized that I am hearing impaired. I believe I have to stand strong for myself because no one will do that part for me. I believe disability doesn't mean my brain is disabled and I am still can be successful in different way. The way I grew up I knew I want to help those who are like me in the communities. Being a Lion would give me more opportunities to help vulnerable ones.

Currently I am working in a mental health behavior setting for 2 years, which I am so glad because I was a psychology major. I am using my talents working with children and teens. Therefore I volunteer at church's children ministry work and outreach.

I worked in the pharmaceutical industry for over 20 years mainly as a manager at a community pharmacy for the latter 16 years.
